

# STACEY BONE PHOTOGRAPHY

As with all of my work, I like to make sure that it is personalised to my clients needs, and as such I price each commission individually.

However, below is a rough guide to the prices that I would expect to charge for a typical studio based product session.

	Simple	Advanced
<9	£21.50	£29.50
10-19	£18.50	£25.00
20 - 50	£15.00	£22.00
50 +	£12.50	£17.50

A simple image would be a single shot on a neutral background that would be used for the duration of the session.

An advanced image would involve more detailed work, varied backgrounds and a range of angles, lighting and close ups.

Alternatively, I can be booked for a an hourly rate. Prices for this are available on request.

There is a minimum charge of £95 for my services. All images are edited for colour balance, exposure and vibrancy. All images are supplied on any media required.

## Lifestyle & Location Product Photography

As with my Portrait work, I will spend time before the shoot working with you to find out what your needs are. I work at a pace that suits your needs and requirements. If required I have a range of contacts that I can call upon to assist. These range from theatre backgrounds to assist with staging and backgrounds, make-up artists and even chefs to help at food shoots.

A typical shoot will cost £250 for 2-3 hours.

If location photography is required I will come with an assistant photographer, and full lighting equipment for the shoot. These shoots are truly bespoke and have many variables so providing a guide price for this is not possible.

All images are edited for colour balance, exposure and vibrancy. All images are supplied on any media required.
